

Tutorial: VirtueMart – Relate Products

Login

Select **Products** and choose **Products List**

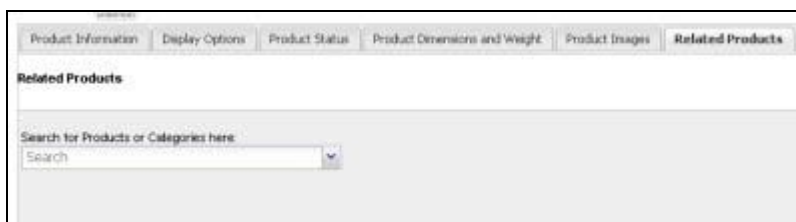

Click on the **Name** of the Product you want to add a relationship to

Click on the **Related Products** tab

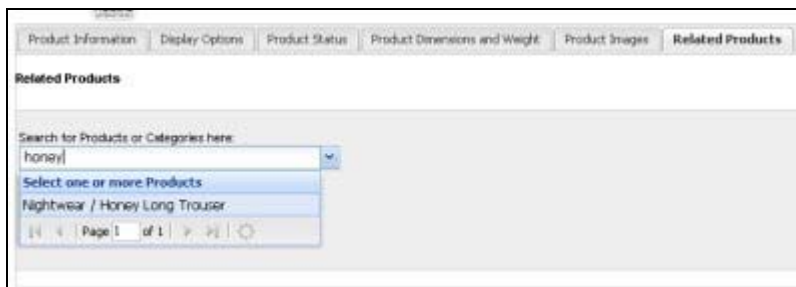

In the **Search** box type the name (or part of the name) of the product you want to relate to.

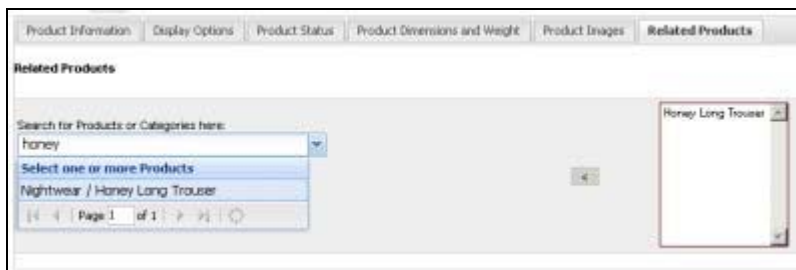

A dropdown will appear where the database is searching for that product (or group of products) which match the word/phrase typed in.

Click on the product name you want to relate to

The product will be entered into the right-hand side box.

You can add as many products as you like to this box, if the search box hasn't found the one you want try a different search term

Click **Save**

This will show a relationship for the product you were working on only, and not the related product. You must repeat this step for all product you want to display the relationship
